

THE TROUTDALE CHAMPION

November / December 2011

Published 6 Times A Year

Mayor's Corner *by Jim Kight*

The Troutdale Bridge recently became the setting for a scene from the new NBC television series Grimm. Photo by Jim Kight

Jobs, Jobs and more

Jobs..... Troutdale is experiencing a major jobs growth with a plethora of public projects. The total amount for the projects is \$126 million. The bridge reconstruction project, which is a four-year project, represents \$73.7 million. This translates into 670 family wage jobs. The intersection improvement at Exit 17 is a \$2.7 million construction contract which provides another 25 jobs. The new \$7.5 million police station currently under construction at Buxton and Second Avenue will furnish 68 to 70 onsite jobs. I have added the qualifier onsite because the num-

bers could be triple when you factor in the manufacturing and distribution of the construction materials for the above-mentioned projects.

And the news just gets better..... The City of Troutdale just made a recent joint announcement with the Port of Portland to invest in the next expansion phase at the Troutdale Reynolds Industrial Park (TRIP). The Port of Portland is investing \$42.1 million in improvements to create nine new lots on 180 acres. Once all three phases are completed they will yield an estimated 3,500 jobs and \$141 million in personal income.

As a recent success story, the new \$129 million, 441,000 square foot FedEx Ground Regional distribution hub began operations on a 78-acre lot in 2010, providing 800 jobs. The TRIP property is the largest brownfield redevelopment project in state history. This investment will create more employment opportunities closer to home.

Hollywood comes to Troutdale..... The opening scene for the television series *Grimm* is the Troutdale Bridge next to Glenn Otto Park. The bridge was recently turned into a Hollywood set to film this new series. New period lights were hung on the bridge along with artwork installed on the front of the bridge, showcasing Troutdale. While the talent and production crews were in our city, they added thousands of dollars to the local economy. The location manager praised the City for quick action in providing the permits and a water source for their water truck. Most of the production took place late at night and into the early morning hours. They hope to return to do background shots of our downtown for future programs. As a side note, 95% of the employees that work for the production company live in Oregon.

We want to wish you a happy Thanksgiving holiday. Reach out to someone that needs to hear from you.

The Champion Partners with Reynolds School District!

The City of Troutdale is teaming up with Reynolds School District to bring you all the news that's fit to print! Beginning with this edition, you'll find information about school district issues and upcoming events inserted into each Champion.

This consolidated effort will save money and time - and keep you up to date about the things you need to know!

Volunteer to Serve on a City Committee

*Good with a budget?
Interested in parks and greenspaces?
Like the intrigue of land-use issues?
If the answer is yes to any of the above, the
City has a committee for you!*

Choose from the Budget Committee, Planning Commission, Public Safety Advisory Committee, Citizens Advisory Committee, Parks Advisory Committee or the new Historic Landmarks Commission! We're looking for a few more interested citizens, so are moving the deadline ahead to November 18th. If you are interested in serving on one of these committees you can obtain an application packet at: Troutdale City Hall, 104 SE Kibling Avenue, on the Web at: www.troutdaleoregon.gov, or contact Debbie Stickney, City Recorder, at 503-674-7237, or debbie.stickney@troutdaleoregon.gov.

The deadline to apply has been extended to 5:00 p.m. on November 18, 2011

Title 13 Code Amendments Reach Home Stretch

Amendments to bring Troutdale's Development Code into compliance with regional requirements for conserving fish and wildlife habitat are under consideration once again after a two-year hiatus. In October 2009, the City Council decided to postpone final action on proposed amendments that had already been evaluated by the Citizens Advisory Committee and the Planning Commission. The amendments are intended to satisfy the Metro regional government's mandate that local governments in the Portland Metropolitan area bring their comprehensive land use plans and implementing ordinances into conformity with Title 13 of the Metro Urban Growth Management Functional Plan. Title 13 is referred to as *Nature in Neighborhoods* and attempts to establish best management practices and standards to conserve, protect and restore significant fish and wildlife habitat throughout the Metro area.

The proposed amendments are mostly revisions to the City's current Vegetation Corridor and Slope Overlay (VECO) zone that applies to properties next to rivers and creeks, with known wetlands, or slopes in excess of 25%. The properties with these features already have development limitations. The proposed Title 13 amendments change existing standards only to the degree necessary to meet minimum compliance. Most importantly, the amendments don't increase the area currently subject to VECO standards; they don't increase the width of the VECO buffer next to rivers, creeks and wetlands; and they don't eliminate or prohibit uses currently

(See "Title 13 Amendments" Page 2)

300 Centennial Posters to be Sold to the Highest Bidder

Three hundred of the Troutdale 2007 Centennial Posters were declared as surplus property by the City Council on September 13, 2011. The City Manager has been authorized to sell the 300 posters to the highest bidder.

To submit a bid for the 300 Centennial Posters you must:

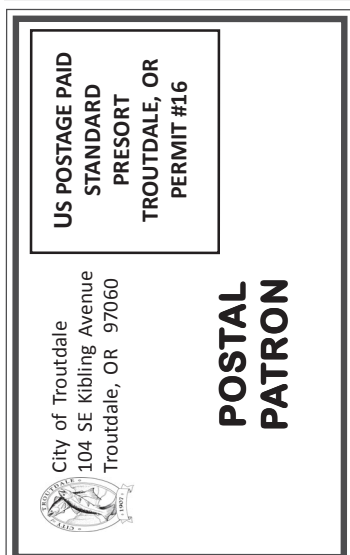

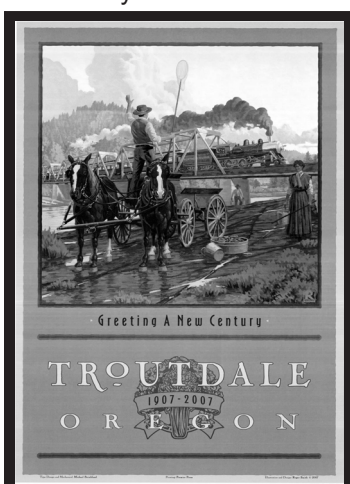

1. Submit a letter, which must contain the following information:
2. Your Name (first and last)
3. Address
4. Email Address
5. Phone Number
6. Amount of your bid
7. The statement, "I attest that I am in fact submitting a bid to the City of Troutdale for the purchase of 300 Centennial Posters," followed by your signature and the date you signed.

**Your letter must be submitted in a sealed envelope addressed to:
City Recorder, City of Troutdale, 104 SE Kibling Avenue, Troutdale,
OR 97060:**

1. Please include the words "*Centennial Poster Bid*" on the front of the envelope.
2. Your bid must be received by 2 p.m. on Friday, November 18, 2011. Late bids will not be accepted.

Notification to the highest bidder will be made before the end of the day on November 21st. Payment will be due in full by November 25th. If the bid is not accepted/paid by 5 p.m. on November 25th, the City will award the bid to the next highest bidder.

If you have any questions please contact Debbie Stickney, City Recorder, at 503-674-7237, or email debbie.stickney@troutdaleoregon.gov

Inclement Weather and Your Garbage Service

In the event of harsh inclement winter weather this season that prevents normal curbside garbage service, City of Troutdale customers may bring normal volumes of garbage to Waste Management's Troutdale Transfer Station at 869 NW Eastwind Drive (south side of Marine Drive across from the Troutdale Airport). This alternative is for Waste Management customers in the City of Troutdale only. To confirm residency, please bring a Waste Management invoice or proof of Troutdale residency. Please note that weather may also impact transfer station hours. To check the latest schedule, go to www.wmnorthwest.com/troutdale/index.html

Remember this offer is only for normal volumes of garbage – the amount you would normally be disposing of at the curb.

The other option is to wait until weather allows your regular service to resume. If your regular service is postponed a week due to weather, Waste Management will collect up to twice your regular amount of garbage on your next regular collection day – weather permitting.

Don't Toss Your Christmas Tree in the Trash-Recycle It!

With the holiday season quickly approaching, it is time to think about Christmas trees. Consider reducing your waste by using a live Christmas tree that can be planted later in your yard or donated to a local school, church or other organization.

If you plan on using a more traditional Christmas tree, plan ahead to recycle it at the end of the holiday season. The following options are available:

Residential Curbside Program:

Christmas trees can be collected by your hauler, Waste Management. There are several options to consider, depending on the height and weight of your tree and whether you are also recycling additional yard debris at the same time. NOTE: In all options listed below, the tree does not have to be bundled. Do not place the tree in the yard debris or garbage containers:

- Free - 6' tall or less and taken in place of your regular yard debris roll cart.
- Free - 6' tall or more, but must be cut in half and taken in place of your regular yard debris roll cart.
- \$4.25 - if set out in addition to your regular yard debris roll cart.
- \$5.35 - Flocked trees, which can only be taken as garbage and not as yard debris. Must be cut into sections 6' or less and weigh less than 55 lbs.

If you are unable to cut your tree down to less than 6', and do not want to schedule a bulky item pickup, please donate your tree to a charitable organization (see box below) or take it to a yard debris depot. For questions, call Waste Management at 503-249-8078.

Commercial Businesses & Apartment Complexes:

Business owners and apartment managers should call Waste Management directly to make arrangements to have Christmas trees picked up and recycled. If you are a tenant, be sure to ask your manager to arrange this service.

Non-Profit Organizations:

Many non-profit organizations provide this service as a fundraiser for many worthwhile projects and as a community service. They usually offer drop off or pick-up services and either charge a small fee or ask for a donation. For more information on non-profit organizations involved, please contact Metro Recycling Information at 503-234-3000.

Boy Scout Troop #174 is Collecting Christmas trees in Troutdale!

Drop your tree off at the corner of NE 242nd & SW Cherry Park Road from 9 a.m. to 4 p.m. on December 31st, January 1st, 2nd, 7th and 8th. If you are unable to drop it off, call 503-593-7563 and the Scouts will pick it up for you!

Donations are appreciated!

Title 13 Amendments Reach Home Stretch

(Continued from Page 1)

permitted in the Overlay District. One notable change from existing standards is the establishment of a ratio of replacement trees and shrubs for removal of trees within the VECO.

Due to the lapse of time since these amendments were previously before the City Council in 2009, the Council held several work sessions earlier this year to become reacquainted and better informed about them. At the City Council's September 27th public hearing, when the ordinance that formally amends the Development Code was introduced, the Council directed City planning staff to hold a

public open house to provide an opportunity for affected property owners to review the proposal and to ask questions about the amendments before they take final action. A second hearing on the proposal is scheduled for November 8th at 7:00 p.m. in the Council Chambers of City Hall at which time the City Council is expected to make a final decision on the adoption of these amendments.

For information about the Title 13-related amendments, contact Senior Planner Elizabeth McCallum at 503-674-7228, or email elizabeth.mccallum@troutdaleoregon.gov.

Open House to Focus on Long-Range Water Issues

The public is invited to review and discuss two master planning efforts currently underway by the Public Works Department. This is your chance to meet with City staff and design professionals to discuss master plans that will guide future capital projects and budgetary planning to ensure the orderly provision of storm drainage management for the City, south of Historic Columbia River Highway, and potable water services for the entire City for the next 20 years.

What: Discuss the South Troutdale Storm Drainage Master Plan and Water Master Plan updates

When: Thursday, December 8, 2011

Time: 6 p.m. until 8 p.m.

Where: Public Works Shop / 342 SW 4th Street

Flood Facts: Now is the Time to Consider Your Flood Risk

Debris piles up on the Sandy River at the I-84 Bridge in Troutdale. The river reached flood stage on January 16, 2011, after a record rainfall and melting snowpack on Mt. Hood.

Everyone lives in a flood zone. Your risk may be low or high, but there is always some risk. The City of Troutdale regulates development within the one-percent annual chance floodplain—what is often called the 100-year floodplain. Is the chance only once in 100-years? Actually, it could occur more than once in any year, but the chance is statistically one percent in any given year. The one-percent annual

chance flood is mapped as a Special Flood Hazard Area by the Federal Emergency Management Agency (FEMA). The City of Troutdale uses those maps, called FIRMs, to determine if development on your property is regulated. If it is, a flood hazard permit is required from the City before you may begin your development. Call the Community Development Department at 503-674-7228 for information.

- If you live in a Special Flood Hazard Area (SFHA) or high-risk area and have a federally-backed mortgage, your mortgage lender requires you to have flood insurance. You can contact the City to find out if your property is in the SFHA.
- Most homeowners insurance does not cover flood damage.
- Just an inch of water can cause costly damage to your property.
- Winter storms and snowmelt are common (but often overlooked) causes of flooding.
- New land development can increase flood risk, especially if the construction changes natural runoff paths.
- Federal disaster assistance is usually a loan that must be paid back with interest.
- If you live in a moderate-to-low risk area and are eligible for the Preferred Risk Policy, flood insurance premiums may be as low as \$129 a year, including coverage for your property's contents.
- Because the City of Troutdale is a participant in the National Flood Insurance Program, all property owners within the City are eligible to purchase flood insurance.
- Troutdale also participates in FEMA's Community Rating System (CRS), so properties can qualify for an insurance premium discount of 10%.
- It takes 30 days after purchase for a policy to take effect, so it's important to buy insurance **before** the floodwaters start to rise.

Check out the National Flood Insurance Program website at www.floodsmart.gov, or call the City of Troutdale Community Development Department at 503-674-7228. More floodplain development standard information is available on the City website at <http://www.troutdaleoregon.gov/floodprotection.htm>.

National Night Out: Troutdale Neighbors United!

Public Safety Event Featured Block Parties and BBQs with Police & Fire Representatives

National Night Out, held August 2nd, has come and gone for 2011, and the Troutdale Police Department would like to thank everyone who participated in the event. Neighborhoods held events ranging from small backyard barbecues to large parties spanning several blocks. Representatives of the Troutdale Police Department and Gresham Fire Department attended some of these events and took the opportunity to connect with residents.

Chief Scott Anderson and Lieutenant Joel Wendland attended a block party on Beaver Creek Lane, hosted by Kathi Scott, block captain for her local Neighborhood Watch. The event was attended by approximately 100 neighbors and included barbeque, games, raffles and sno-cones. Among the attendees were area residents, former Mayor Paul Thalhofer and City Council President Doug Daoust, who were warmly welcomed by the community.

Subsequent to the block party, neighbors observed a suspicious person sleeping near a sidewalk in some bushes. Troutdale officers responded to the location and took a male into custody and confiscated several bags of marijuana in a backpack. Neighborhood Watch Works! If you would like to make your neighborhood more crime-resistant, contact Lieutenant Joel Wendland at joel.wendland@troutdaleoregon.gov, or call 503-665-6129, extension 2242, and become active in Neighborhood Watch.

Plans are already underway for next year's National Night Out 2012, and we invite you to be involved with that event as well.

Troutdale Police Chief Scott Anderson and Gresham Fire Department members from Troutdale Station 75, Firefighter Jeremy Forrest and Lt. Neil Dietz, met with neighbors during National Night Out to discuss public safety issues.

Community Policing can be defined, simply, as a partnership between the citizens and the police for the purpose of preventing crime and apprehending suspects when crime does occur. I know firsthand how important it is to establish and maintain that partnership. During my law enforcement career the vast majority of crimes that were cleared by arrest would not have been successfully solved without the eyes and ears

CODE CORNER

by John Copeland, Code Enforcement Officer

Is Your Address Visible from the Street? Proper placement of numbers can save lives

of alert and vigilant citizens who are willing to get involved. When the police are responding to a crime in progress or one that has just occurred, it is critical that we receive accurate information and descriptions.

One thing that all citizens can do to assist emergency responders is to have clear and visible address numbers on their property. The Oregon Fire Code section 505.1 states that new and existing buildings shall have approved address numbers, building numbers or approved building identification placed in a position that is plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alpha-
Numbers shall be a minimum of four inches high with a minimum stroke width of one-half inch.

Crucial time is wasted when emergency responders cannot quickly find an address because the numbers are missing, not clearly readable, or are obstructed by vegetation. Please look at the front of your home and determine whether your address numbers are clearly visible from the street. If not, take a few minutes to replace them or trim any vegetation that is obstructing the address. **It truly could be a matter of life and death.**

Another way you can assist the Police Department in making your neighborhood safer is to become actively involved in a Neighborhood Watch group. If you are interested in participating in a Neighborhood Watch group or would just like more information, please call Lieutenant Joel Wendland at 503-665-6129, extension 2242, or email him at joel.wendland@troutdaleoregon.gov

Make it easy for emergency personnel to find you! (Top to bottom) Arrange numbers in proper order; for easy reading, provide enough contrast between house color and address numbers; Replace missing numbers immediately and don't handwrite your own numbers.

Annual Toy Drive Kicks off November 25th

The Troutdale Public Safety Advisory Committee (PSAC) will be kicking off the 10th Annual Christmas Toy Drive at the Wood Village Walmart on Friday, November 25, 2011. Members of the PSAC, Troutdale Police Department, Multnomah County Sheriff's Office and other community volunteers will collect toys for children of East County at Walmart every Saturday and Sunday through December 18, 2011.

Anyone who is interested in helping out with this very worthwhile project is encouraged to contact Ms. Jorgan Shaw at 503-618-1876. Please come help us support the kids in East Multnomah County.

Volunteer to Help or Donate New Toys!

State-of-the-Art Kitchen Transforms Popular City Rental Facility

The Sam Cox Building is Ready for Your Event!

If you are planning a wedding, memorial service, graduation, anniversary celebration or just a party for the fun of it, you will be happy to know that the recently completed remodel of the kitchen in the Sam Cox Building at Glenn Otto Park is ready to serve your needs. The City now offers one of the Metro area's finest commercial kitchens within a rental facility, for the many future users of the Sam Cox Building. The kitchen includes new heavy-duty appliances, stainless steel work tables, an extra large dishwashing sink, vegetable prep sink, mop sink, hand washing sink and spacious new refrigerator and freezer.

When Troutdale Building Official Dick Bohlmann re-designed the Sam Cox Building kitchen, he kept in mind the potential needs of large groups and caterers so they could efficiently prepare and serve their menu to groups of up to 170 people, the great room's rated capacity. The kitchen presented many challenges along the way as the water and sewer lines to the building were found to be inadequate and had to be replaced, requiring additional excavation both outside and inside the building. All the plumbing, branch circuit wiring and gas lines have been updated to current code and concealed within the structure. All vertical surfaces in the food prep and cooking areas are now covered by a textured and highly scrubbable material that affords easy cleanup and eliminates the need for any future kitchen painting. Another change for use of the building is that the exterior kitchen door will remain as kitchen access only, and access to the great room will be through the original double-door entrance on the north side.

A special thanks goes to City employee Mike Korst for his hard work throughout the renovation process, and to Art Israelson and the Northwest Steelheaders for their volunteerism and dedication to this project over the past few months. One of the first kitchen users has this to say about the kitchen: "This is so much better! I particularly liked the vent and fan over the grill and the multiple sinks. More of us were able to work in there without stepping into each other." Expect more renovations to come with the next step in the building upgrade. We'll keep you posted!

City Receives Fitness Award

Troutdale was one of four Oregon cities to be awarded the Fitness Leadership Award by the Governor's Council on Physical Fitness and Sports. Left to right: Ronna Rothenberger-Taekwondo instructor, Mayor Jim Kight and Andrea Jackson-Karate instructor.

Troutdale Historical Society...Where History Matters

With the passing of the Oregon Historical Society levy last year, the four historical societies located in East County also benefitted. With the first allocation Troutdale Historical Society (THS) received, it allowed a rebuild of the front porch and painting of the Harlow House Museum. The house is one of the many treasures voters helped preserve.

The Harlow House, one of three museums in the City operated by Troutdale Historical Society. Harlow House was built in 1900 by Fred E. Harlow. The other two museums are The Rail Depot and The Barn Museum.

The Harlow House was built in 1900 on what was known as the "Harlow Farm" by Fred E. Harlow, son of Troutdale founder Captain John Harlow. Fred Harlow and his family lived in the home until about 1915. The second occupants of the home were Lou Harlow, another of the captain's sons, and his wife Laura Bullock Harlow. Both Lou and Laura were mayors of Troutdale. The knoll on which the house stands kept it above the 1948 flood waters. The contents of the Harlow House Museum include household goods from both the Harlow families as well as many items donated by residents of the area. The museum is on the National Register of Historical Places. The grounds of the Harlow House are part of the City park system.

Don't miss these upcoming Historical Society events:

THS would like to invite all Multnomah County residents, free of charge, to view all three THS museums on Saturday, November 19, 2011, from 10 a.m. to 2 p.m. December 3rd is the Annual Christmas Open House, a free event at Harlow House from 11 a.m. to 3 p.m. Come enjoy the decorations and get your picture taken with Santa. Cookies and wassail will be served. Tickets are on sale at the Depot Museum for this year's quilt drawing, which will take place at the Christmas Open House.

Hours of the THS office, and Depot Museum & Store, are Tuesday through Saturday from 10 a.m. to 2 p.m. For more information about any of these events, or to join or volunteer, please call the Troutdale Historical Society office at 503-661-2164.
